

18  
Jan.  
2010

**h. 8:30**  
**MALECAZE F.**  
LASIK: Technique principles and complications

**h. 10:30**  
**MALECAZE F.**  
Ectatic disorders of the cornea. Collagen Cross-linking

**h. 12:30 - Lunch -**

**h. 13:30**  
**GÜELL J. L.**  
Basic science: Anatomy and physiology: pathological responses of the cornea. Amniotic membrane

**h. 15:30**  
**GÜELL J. L.**  
Penetrating keratoplasty (fundamentals, technique and complications). Management of astigmatism after keratoplasty

19  
Jan.  
2010

**h. 8:30**  
Intracorneal implants

**h. 10:30**  
Infectious keratitis. Microbiologic-cytologic testing

**h. 12:30 - Lunch -**

**h. 13:30**  
**ELIES D.**  
Phakic IOL's: technique, indications and complications

**h. 15:30**  
**ELIES D.**  
Corneal topography and IOL power calculation

20  
Jan.  
2010

**h. 8:30**  
**NUIJTS R.**  
Anterior lamellar corneal surgery

**h. 10:30**  
**NUIJTS R.**  
Intraocular toric implants

**h. 12:30 - Lunch -**

**h. 13:30 - 18:00**  
Wet Lab

21  
Jan.  
2010

**h. 8:30**  
**PALLIKARIS I.**  
Presbyopia: physiology and surgical management

**h. 10:30**  
**PALLIKARIS I.**  
Advanced surface ablation techniques

**h. 12:30 - Lunch -**

**h. 13:30 - 18:00**  
Wet Lab

22  
Jan.  
2010

**h. 8:30**  
**DUA H.**  
Ocular surface disease and management: Limbal and conjunctival surgery

**h. 10:30**  
**DUA H.**  
Dry eye

**h. 12:30 - Lunch -**

**h. 13:30**  
**ROSEN E.**  
Refractive lens exchange

**h. 15:30**  
**SIMONA F.**  
Basic optics for the ophthalmic surgeon

**h. 17:30 - 20:00**  
Wet Lab

23  
Jan.  
2010

**h. 8:30**  
**HANNUSH S. B.**  
Non-infectious keratitis

**h. 10:30**  
**HANNUSH S. B.**  
Corneal dystrophies and endothelial transplantation

**h. 12:30**  
**- END OF THE MODULE -**
