

Medical Retina

3 – 7 February 2014, Lugano/Switzerland

Scientific coordinators: Borja Corcóstegui, Bruno Falcomatà

	MONDAY, 3 FEBRUARY 2014	
08:30	Opening remarks	
09:00	Clinical aspects and diagnosis of non-infectious uveitis	Phuc LeHoang, France
09:45	Therapeutic management, prognosis, and follow-up of non-infectious uveitis	
10:30	COFFEE BREAK	
10:45	New therapies for non-infectious uveitis	
11:00	Clinical case presentations and discussion of non-infectious uveitis	
11:45	Diabetic macular edema surgery: When does it resolve DME, when does it supplement anti-VEGF therapy, when is it ineffective?	Anselm Kampik, Germany
12:30	LUNCH	
13:30	Diabetic retinopathy-masquerading entities	
14:00	New treatments for proliferative diabetic retinopathy	
14:30	Complications of the treatments for proliferative diabetic retinopathy	
15:00	Central serous chorioretinopathy: Clinical aspects and treatment	Alain Gaudric, France
16:00 – 17:00	Central serous chorioretinopathy: Clinical case presentations and discussion	
	TUESDAY, 4 FEBRUARY 2014	
08:45	Neovascular AMD: Role of imaging from diagnosis and prognosis to treatment management	Paolo Lanzetta, Italy
10:00	COFFEE BREAK	
10:15	Intravitreal anti-VEGF treatment for neovascular AMD: a story of choices: When to start, what type of lesions are we facing, which regimen of treatment should be applied, can we stabilize CNV in the long term without losing vision, when to discontinue treatment	
11:30	Clinical importance of the pharmacokinetics of intraocular drugs (anti-VEGF, steroids, antibiotics)	Carsten Meyer, Switzerland
12:00	Bevacizumab, ranibizumab, aflibercept: which one is more durable?	
12:30	LUNCH	
13:30	Neovascular maculopathies other than AMD: differential diagnosis and treatment	Paolo Lanzetta, Italy
14:30 – 15:30	Dry AMD: staging and role of imaging	
	WEDNESDAY, 5 FEBRUARY 2014	
08:45	Diabetic macular edema: Clinical aspects and prognostic factors for visual recovery	Giovanni Staurenghi, Italy
09:30	Diabetic macular edema: Medical, laser, intravitreal anti-VEGF, and corticosteroid treatments	
10:15	COFFEE BREAK	
10:30	Individualized treatments for diabetic macular edema: combining time-sparing, efficacy, and cost-effectiveness	
11:15	Non-perfused retinal vein occlusion: laser photocoagulation and new treatments	Bora Eldem, Turkey

Medical Retina

3 – 7 February 2014, Lugano/Switzerland

Scientific coordinators: Borja Corcóstegui, Bruno Falcomatà

	WEDNESDAY, 5 FEBRUARY 2014	
12:30	LUNCH	
13:30	Non-perfused retinal vein occlusion: Clinical case presentations and discussion	Bora Eldem, Turkey
14:15	Comparing RVO trials and OCT in venous occlusions	
15:15	COFFEE BREAK	
15:30 – 16:30	Diabetic macular edema: Clinical cases presentation and discussion	Giovanni Staurenghi, Italy
	THURSDAY, 6 FEBRUARY 2014	
09:15	Retinal vein occlusion: Patient management, clinical aspects, prognostic factors, and choice of treatment	Gisbert Richard, Germany
10:00	Macular edema in retinal vein occlusion: Treatments, follow-up, and long-term results	
10:30	COFFEE BREAK	
10:45 – 11:45	Macular edema in retinal vein occlusion: Clinical case presentations and discussion	
12:30	LUNCH	
13:30	Clinical aspects and diagnosis of infectious uveitis	Carlos Pavesio, UK
14:15	Therapeutic management of infectious uveitis	
14:45	Follow-up and prognosis of infectious uveitis	
15:15	Treatment of uveitis-related cystoid macular edema	
16:15 – 17:00	Clinical case presentations and discussion of infectious uveitis	
	FRIDAY, 7 FEBRUARY 2014	
	Optical Coherence Tomography (OCT) Course; Coordinator: Bruno Lumbroso, Italy	
09:00	OCT technical presentation	
09:30	OCT en face clinical applications	Bruno Lumbroso, Italy
09:45	OCT macular microstructure and aspects of macular edema	
10:00	OCT and choroid disorders	
10:15	COFFEE BREAK	
10:30	OCT in myopic macula	Pearse A. Keane, UK
10:45	OCT enface in macular surgery	Micol Alkabes, Italy
11:00	Drusen in Age-Related Macular Degeneration: Classification and OCT Findings	Pearse A. Keane, UK
11:15	OCT in wet AMD: type, activity and evolution	Micol Alkabes, Italy
11:30	OCT in uveitis	Luisa Pierro, Italy
11:45	OCT prognostic factors in macular edema	
12:00	Modifications of diabetic macular edema	
12:15	Mystery OCTs (clinical cases)	Micol Alkabes, Italy
12:30	Discussion	
12:45 – 13:15	Certificates and farewell
