

**CATARACT COURSE BASIC**  
**OPHTACORE TRAINING CENTRE, TIMISOARA**  
**14-16 May 2026**

ESASO Scientific director: Mario Romano  
Course Scientific coordinator: Mihnea Munteanu

**14 May 2026**

<b>08:45 - 09:00</b>	<b>Registration</b>	
09:00-09:15	Welcome + Video ESASO	
09:15 - 09:45	Understanding the basics of phacoemulsification <i>Fundamentals of phaco: machine settings, key</i>	Mihnea Munteanu
09:45 - 10:30	Mastering cataract surgery step-by-step <i>Incisions, capsulorhexis, lens fragmentation, IOL insertion</i>	Raluca Iancu
<b>10:30 - 11:00</b>	<b>Coffee break</b>	
11:00 - 11:30	IOL selection made simple – A guide to power calculations <i>Biometry principles, choosing formulas, and practical application</i>	Bogdan Galan
11:30 - 12:00	Types of IOLs – Knowing your options <i>Overview of monofocal, toric, EDOF, multifocal, and trifocal IOLs</i>	Atanas Bogoev
12:00 - 12:30	Matching the Right IOL to the Right Patient <i>Indications for each IOL and patient selection criteria</i>	Raluca Iancu
12:30 - 13:00	Q&A and discussion	
<b>13:00 - 14:00</b>	<b>Lunch Break</b>	
14:00-14:30	Managing shallow anterior chamber and hard lenses	Atanas Bogoev
14:30-15:00	Phaco in eyes with zonular weakness	Atanas Bogoev

15:00-18:00	<b>WETLAB</b>	Bogdan Galan, Raluca Iancu, Atanas Bogoev
	<b>Participants will work in pairs (surgeon + assistant), alternating roles during the session, under continuous faculty supervision.</b>	
	<b>Hands-on activities include:</b>	
	Tbd	
	<b>Learning objectives:</b>	
	To build confidence in the fundamental surgical steps, improve hand-eye coordination and develop correct ergonomics and surgical flow.	

## DAY 2 15 May 2026

09:00 – 10:00	Complication management – Staying calm under pressure <i>Decision-making and adapting techniques in real time</i>	Horia T. Stanca
10:00 – 10:30	When things go wrong: PCR and vitreous loss <i>How best to handle the situation and stress</i>	Marco Tavolato
10:30 – 11:00	Coffee break	
11:00 – 12:00	Post-operative refractive surprises <i>Possible problems and solutions</i>	Bogdan Galan
12:00 - 13:00	Q&A and discussion	
13:00 – 14:00	Lunch Break	
14:00-14:30	Cataract surgery in the presence of corneal pathology	Marco Tavolato
14:30 -15:00	Cataract surgery in ocular surface disease (Dr. Bogdan Galan)	Bogdan Galan
15:00-15:30	Cataract surgery in post-refractive surgery eyes	Horia T. Stanca
15:30 – 17:30	WETLAB	Horia T. Stanca, Mihnea Munteanu, Marco Tavolato, Bogdan Galan
	Participants will continue working in pairs, practising alternatives scenarios	
	Hands-on activities include:	
	Learning objectives:	
	To improve decision-making, maintain surgical control in unexpected situations and increase confidence.

**DAY 3**

**16 May 2026**

---

**From Surgeon to Communicator: Building Trust and Setting Realistic Expectations in Cataract Surgery**

09:00 – 10:30	This session focuses on effective communication with cataract patients before and after surgery. Participants will learn how to explain the procedure in clear and reassuring language, discuss IOL options, manage expectations regarding visual outcomes, and handle patient anxiety or dissatisfaction. Practical examples and interactive discussion will help translate communication skills into daily clinical practice.
---------------	---

<b>10:30 – 11:00</b>	<b>Coffee break</b>
----------------------	---------------------

11:00 – 13:00	<b>Creating a Safe and Trustworthy Surgical Environment: Teamwork, Empathy and Role-Play Scenarios</b>
---------------	--

This interactive session explores how to create a calm, safe and

---

---

trustworthy environment for patients and surgical teams.  
Through **role-play exercises**, participants will practise real-life scenarios such as managing difficult patients, communicating complications, and working effectively with the operating room team. The session aims to strengthen empathy, teamwork and leadership skills essential for young cataract surgeons.
